

Classic Distortion Pedal

A classic take on a simple design, this JFET-based distortion pedal provides a wide range of tones with an amazing tube-like touch-response. Great for everything from a clean boost to full distortion, this pedal really does the “cranked tube amp” sound really well - and more.

Controls

Volume - control to adjust the overall volume of the pedal.

Tone - control to adjust how bright or dark the pedal is.

Gain - control to adjust the amount of gain.

Phat - switch to engage a fuller overall tone.

Features

- True-bypass
- 1/4" input jack
- 1/4" output jack
- 9V DC jack, negative tip (4mA current draw)
