

Horseback Overdrive Pedal

A highly sought-after - and very clever - overdrive circuit, this pedal provides a really responsive and transparent overdrive that pairs well just about any amp and any style. Use it for a clean boost, a light crunch, or to bring the heat. The pedal comes with 2 switches for up to 5 different combinations to select alternate versions of this popular circuit from over the years.

Controls

Volume - control to adjust the overall volume of the pedal.

Tone - control to adjust how bright or dark the pedal is.

Gain - control to adjust the amount of gain.

Type - switch between diode type - silicon, LED, or germanium.

Clipping - switch between symmetrical (left) & asymmetrical (right) clipping (*doesn't apply to LED diodes.*)

Features

- True-bypass
- 1/4" input jack
- 1/4" output jack
- 9V DC jack, negative tip (25mA current draw)
- Internal 9V battery clip*

Made in the USA
